#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the manner and place of use of a portion of the waters of the Truckee River as set forth under Claim Number 3 in the Truckee River final decree, and under Permit 47810, Certificate 13150, is issued subject to the terms and conditions imposed in said decree and permit and with the understanding that no other rights on the source will be affected by the change proposed herein

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is expressly contingent on the payment of the operation and maintenance charges that are properly assessed and come due the same as if the water were still appurtenant to the agricultural land from which it is transferred, pursuant to NRS 533.370, subsection 1 (b).

If the effect of granting this permit does not have a neutral effect on the efficiency calculations under OCAP, adequate mitigation must be provided.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 6.786 cubic feet per second or 1615.16 acre feet as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:
